

A New Chapter for tradias: Now a Fully Licensed Securities Trading Bank and Successfully Completed Series A

Frankfurt, 7. Oktober 2024: Today marks a significant milestone in the journey of tradias. Since our inception, we have been driven by one mission: to become Europe's most relevant, regulated player in the digital assets trading space. Until now, we achieved our status as the leading German player by leveraging the licenses of our trusted partner, Bankhaus Scheich.

Today, we are proud to announce that tradias has officially obtained a securities trading bank license, issued by BaFin. This achievement reflects the hard work, commitment, and passion of our entire team, who have worked tirelessly to build a leading institution that not only supports the growth of the crypto market but also operates in a fully regulated environment.

In addition, tradias has recently completed a successful Series A funding round, securing growth capital to further expand our services, backed by a strong balance sheet.

Christopher Beck (Founder, tradias): *"The transformation from an idea to a fully licensed bank is a testament to our team's vision and relentless drive. Securing our own licenses and completing a successful Series A funding round is a tremendous milestone for our company."*

Michael Reinhard (CEO, tradias): *"Achieving securities trading bank status with our own licenses marks a defining moment for tradias, allowing us to open a new chapter of accelerated growth and solidify our position as a leading regulated player in the digital assets space."*

This is just the beginning of a bigger journey. With our new status as a licensed securities trading bank and strengthened equity base, we will drive our European expansion in 2025, upgrade our product offering, and continue to innovate in the fast-evolving world of digital assets.

A big thank you to our clients, dedicated team, investors and business partners, for supporting us along the way and for everything which is ahead of us. We look forward to shaping the future of crypto finance together.
